Learning Java, Second Edition Patrick Niemeyer, Jonathan Knudsen

Learning Java provides an accessible yet comprehensive introduction to the programming language that has changed the way we think about computing. Java has become the language of choice for a wide variety of applications: web services, secure network systems, XML-based tools, reusable components, and mission-critical enterprise systems. *Learning Java* is filled with easy-to-follow code examples that guide you through Java's many features, APIs, and facilities.This new edition of *Learning Java* has been expanded and updated for Java 2 Standard Edition SDK 1.4. It comprehensively addresses important topics such as web applications, servlets, and XML that are increasingly driving enterprise applications. This edition provides full coverage of all Java 1.4 language features including assertions and exception chaining as well as new APIs such as regular expressions and NIO, the new I/O package. New Swing features and components are described along with updated coverage of the JavaBeans component architecture using the open source NetBeans IDE the latest information about Applets and the Java Plug-in for all major web browsers.The accompanying CD-ROM provides all you need to start working with Java immediately. In addition to the many example programs from the book, the CD includes the complete J2SE SDK 1.4, the NetBeans IDE, the Jakarta Project's Ant make utility and Tomcat application server as well as BeanShell, a simple open source Java scripting language developed by author Pat Niemeyer.

From reader reviews:

Curtis Locke:

Book is definitely written, printed, or outlined for everything. You can learn everything you want by a guide. Book has a different type. We all know that that book is important thing to bring us around the world. Close to that you can your reading ability was fluently. A guide Learning Java, Second Edition will make you to end up being smarter. You can feel far more confidence if you can know about everything. But some of you think which open or reading the book make you bored. It is far from make you fun. Why they are often thought like that? Have you looking for best book or ideal book with you?

Esther Belote:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what yours problem? How about your spare time? Or are you busy particular person? If you don't have spare time to perform others business, it is make one feel bored faster. And you have time? What did you do? Everyone has many questions above. They must answer that question since just their can do which. It said that about book. Book is familiar in each person. Yes, it is appropriate. Because start from on kindergarten until university need this Learning Java, Second Edition to read.

Misty Ware:

Information is provisions for individuals to get better life, information nowadays can get by anyone on everywhere. The information can be a knowledge or any news even a problem. What people must be consider while those information which is inside the former life are challenging to be find than now is taking seriously which one is suitable to believe or which one often the resource are convinced. If you receive the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen throughout you if you take Learning Java, Second Edition as the daily resource information.

Michael Major:

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library in order to make summary for some book, they are complained. Just tiny students that has reading's internal or real their interest. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring along with can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Learning Java, Second Edition can make you sense more interested to read.
