Professional C# (2nd Edition) Simon Robinson, Burt Harvey, Christian Nagel, Ollie Cornes, Karli Watson, Morgan Skinner, Jay Glynn, Zach Greenvoss, Scott Allen
It is no exaggeration to describe the C# language and its associated environment, the .NET Framework, as the most important new technology for developers in many years. .NET provides a new environment within which you can develop almost any Windows-based or web-based application, while C# is a new programming language designed specifically to work with .NET.

Entirely revised and updated for the Golden Release of .NET, Professional C# 2nd Edition is the ideal introduction to the C# language and the .NET Framework, and will become an indispensable companion for any user of C# and .NET.

Offering an unparalleled breadth and depth of coverage, this book provides the information that you need to learn the key concepts of the C# language, and then takes you on to a complete exploration of programming the .NET Framework with C#, so that you are ready to develop powerful C# applications in the .NET environment.

Topics covered include:

- How to program in the object-oriented C# language

- Writing Windows applications and Windows services

- Writing web pages and web services with ASP.NET

- Manipulating XML using C#

- Understanding .NET Assemblies

- Using ADO.NET to access databases

- Integration with COM, COM+, and Active Directory

- Distributed applications with .NET Remoting

- Generating graphics, and printing documents using C#

- Accessing the Internet with C#, and network programming

- Handling files and the Registry, and controlling .NET security

From reader reviews:

Michael Watkins:

The book Professional C# (2nd Edition) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the good thing like a book Professional C# (2nd Edition)? A few of you have a different opinion about guide. But one aim which book can give many info for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or info that you take for that, you could give for each other; it is possible to share all of these. Book Professional C# (2nd Edition) has simple shape however you know: it has great and large function for you. You can seem the enormous world by wide open and read a reserve. So it is very wonderful.

Peter Gomez:

Precisely why? Because this Professional C# (2nd Edition) is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will surprise you with the secret this inside. Reading this book beside it was fantastic author who all write the book in such awesome way makes the content on the inside easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you for not hesitating having this any longer or you going to regret it. This unique book will give you a lot of benefits than the other book include such as help improving your skill and your critical thinking approach. So , still want to postpone having that book? If I were being you I will go to the book store hurriedly.

David Barthel:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book has been rare? Why so many query for the book? But almost any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but novel and Professional C# (2nd Edition) or others sources were given understanding for you. After you know how the great a book, you feel want to read more and more. Science guide was created for teacher or perhaps students especially. Those publications are helping them to increase their knowledge. In other case, beside science guide, any other book likes Professional C# (2nd Edition) to make your spare time far more colorful. Many types of book like this.

Shirley Vega:

A lot of guide has printed but it is different. You can get it by online on social media. You can choose the very best book for you, science, comic, novel, or whatever by means of searching from it. It is called of book Professional C# (2nd Edition). Contain your knowledge by it. Without leaving the printed book, it could add your knowledge and make an individual happier to read. It is most essential that, you must aware about guide. It can bring you from one destination to other place.
