Sweet & Salt: Water and the Dutch
Water management runs in the blood of the Dutch: draining the Netherlands and keeping it dry is a process they started centuries ago and continue to this day. In *Sweet & Salt: Water and the Dutch*, author Tracy Metz and art historian Maartje van den Heuvel demonstrate, in text and images, how the Netherlands negotiates its evolving relationship with water--and what the rest of the world can learn from them as our sea levels rise, our rivers swell and storms and droughts multiply. From New Orleans and Hamburg to Vietnam and China, the world is facing landscapes in drastic metamorphosis. And from the dikes and dams of the past to the new solutions of Dutch design practice for the future, the Netherlands' history with water offers a much-needed perspective on life in our new waterworld.
