Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986

The workshop was set up in order to stimulate the interaction between (finite and algebraic) geometries and groups. Five areas of concentrated research were chosen on which attention would be focused, namely: diagram geometries and chamber systems with transitive automorphism groups, geometries viewed as incidence systems, properties of finite groups of Lie type, geometries related to finite simple groups, and algebraic groups. The list of talks (cf. page iii) illustrates how these subjects were represented during the workshop. The contributions to these proceedings mainly belong to the first three areas; therefore, (i) diagram geometries and chamber systems with transitive automorphism groups, (ii) geometries viewed as incidence systems, and (iii) properties of finite groups of Lie type occur as section titles. The fourth and final section of these proceedings has been named graphs and groups; besides some graph theory, this encapsules most of the work related to finite simple groups that does not (explicitly) deal with diagram geometry. A few more words about the content: (i). Diagram geometries and chamber systems with transitive automorphism groups. As a consequence of Tits' seminal work on the subject, all finite buildings are known. But usually, in a situation where groups are to be characterized by certain data concerning subgroups, a lot less is known than the full parabolic picture corresponding to the building.

From reader reviews:

Jarred Chisolm:

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each reserve has different aim or perhaps goal; it means that e-book has different type. Some people feel enjoy to spend their time for you to read a book. They are really reading whatever they take because their hobby is reading a book. How about the person who don't like examining a book? Sometime, individual feel need book when they found difficult problem as well as exercise. Well, probably you will need this Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986.

Angel Sutton:

Reading a book to get new life style in this 12 months; every people loves to go through a book. When you go through a book you can get a great deal of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you would like get information about your examine, you can read education books, but if you want to entertain yourself look for a fiction books, this sort of us novel, comics, as well as soon. The Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986 will give you a new experience in looking at a book.

Juanita Stoneman:

It is possible to spend your free time to see this book this book. This Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986 is simple to develop you can read it in the recreation area, in the beach, train as well as soon. If you did not possess much space to bring the printed book, you can buy the actual e-book. It is make you simpler to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Gigi Brown:

Do you like reading a e-book? Confuse to looking for your favorite book? Or your book was rare? Why so many query for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading, not only science book but also novel and Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986 as well as others sources were given know-how for you. After you know how the good a book, you feel need to read more and more. Science e-book was created for teacher or even students especially. Those ebooks are helping them to bring their knowledge. In different case, beside science publication, any other book likes Geometries and Groups: Proceedings of the Workshop Geometries and Groups, Finite and Algebraic, Noorwijkerhout, Holland, March 1986 to make your spare time far more colorful. Many types of book like this one.
