I Beat Cancer Holistically: Protocols for Breast, Colon, Lung and Prostate Cancer Daniel J. Goldstone Did you know the medical community only treats the symptoms of cancer, and it is your responsibility to treat the cause? In May 2005, Daniel Goldstone received the shock of his life when he was diagnosed with advanced prostate cancer. Nine months after traditional treatment, his cancer returned with a vengeance-the tumor was growing at 300 percent a month. After researching all the other traditional treatments, which gave him a 29 percent chance of surviving another four years and would drastically reduce his quality of life, he decided to take an alternative route. Today, Daniel is 100 percent in remission due to his holistic approach. His previous book, Advanced Prostate Cancer and Me, has helped many people around the world beat prostate cancer but, over the course of the years, he has discovered that with a few modifications his five main ingredients are just as effective for breast, colon and lung cancer as well. In 2011, he recruited people with different stages of cancer to test the effect of his protocol and the results were tremendous, which motivated him to do this book. Daniel's mission "or calling" in life now is to help others beat the beast!
