biochemTEST: 1000 multiple choice questions of biochemistry for university students Dr Jose Ramon Blas
This book has resulted a very appreciated help for university students to successfully pass multiple choice question based biochemistry exams, which are the most common way of being assessed in subjects as General Biochemistry, Medical Biochemistry and other biosciences courses given at many universities throughout the world. For the student facing such exams, the fact of 'having understood and memorized' all the contents is not enough. It is crucial to practice repeatedly the exercise of searching in the memory for the proper answer, distinguishing it from very similar options, specifically designed for inducing to error. Facing to these situations again and again before the exam will reinforce your memory ability and will surely improve your grade. The 1000 questions are put into 19 content blocks. Within these blocks, to simulate the exam conditions, I have not made any additional order (apart from sugar or lipid metabolism, and photosynthesis). Each block must be addressed after a thorough study of the contents found in the indicated reference books or the ones given by your teachers. I have prepared the questions in the same way that I prepare the exams for my students. They are the fruit of a methodical and exhaustive review of the indicated bibliography, and they cover from the most obvious aspects to the trickiest ones, with the pursuit of 'leaving nothing without being asked'. Surely the teachers will also find good ideas on 'what and how to ask' for these blank evenings preparing the proof. Some technical issues: i) I have chosen a 5-options model (very common in many universities). You must know that this option entails that a mistake subtracts 0.25 right answers. ii) when a right answer is included in a more general answer, that is also right, the valid option is the last one. About me. I got my PhD in Biology at the University of Barcelona (Spain). I am specialized in macromolecular structure, molecular simulation, bioinformatics, computational biochemistry, drug design,… I combine (when it is possible!!) the teaching at a secondary school with university teaching. I have been assistant professor of Biochemistry at the University of Barcelona and the University of Castilla-La Mancha. You can send me at joseramonblas@gmail.com any doubt arisen from the work with the book, that I will be very glad to answer. I hope it improves your grade and your learning.

From reader reviews:

Lester Jaworski:

As people who live in the particular modest era should be revise about what going on or information even knowledge to make these people keep up with the era which can be always change and move forward. Some of you maybe will update themselves by reading through books. It is a good choice for yourself but the problems coming to a person is you don't know what kind you should start with. This biochemTEST: 1000 multiple choice questions of biochemistry for university students is our recommendation to make you keep up with the world. Why, as this book serves what you want and want in this era.

Robert Kuehner:

Do you one of people who can't read pleasurable if the sentence chained in the straightway, hold on guys this specific aren't like that. This biochemTEST: 1000 multiple choice questions of biochemistry for university students book is readable simply by you who hate those perfect word style. You will find the facts here are arrange for enjoyable examining experience without leaving possibly decrease the knowledge that want to supply to you. The writer connected with biochemTEST: 1000 multiple choice questions of biochemistry for university students content conveys the thought easily to understand by many people. The printed and e-book are not different in the articles but it just different by means of it. So , do you even now thinking biochemTEST: 1000 multiple choice questions of biochemistry for university students is not loveable to be your top record reading book?

Theodore Stewart:

Playing with family inside a park, coming to see the sea world or hanging out with good friends is thing that usually you may have done when you have spare time, subsequently why you don't try factor that really opposite from that. A single activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love biochemTEST: 1000 multiple choice questions of biochemistry for university students, you may enjoy both. It is fine combination right, you still want to miss it? What kind of hang-out type is it? Oh can happen its mind hangout fellas. What? Still don't obtain it, oh come on its referred to as reading friends.

Robert Vargas:

Do you have something that you want such as book? The book lovers usually prefer to opt for book like comic, small story and the biggest one is novel. Now, why not striving biochemTEST: 1000 multiple choice questions of biochemistry for university students that give your entertainment preference will be satisfied by means of reading this book. Reading addiction all over the world can be said as the opportinity for people to know world much better then how they react in the direction of the world. It can't be mentioned constantly that reading practice only for the geeky man or woman but for all of you who wants to always be success person. So , for all of you who want to start examining as your good habit, you could pick biochemTEST:

1000 multiple choice questions of biochemistry for university students become your own personal starter.
