Obesity, Diabetes & How To Eat To Live: Transcending the Dietary Dark Ages, 2nd Ed. Kevin A. Muhammad
This second edition of Obesity, Diabetes & How To Eat To Live: Transcending the Dietary Dark Ages, positions the obesity and diabetes pandemics in the context of a global disintegration of civilization, a dark age. Commercial interests (a.k.a. merchants of death), with ferocity, enact scheme-after-scheme and ploy-after-ploy to keep the population unhealthy.

This has made "obesity" a foremost profit center wherein toxic pills, potions, brutal surgical procedures, and bogus diet plans — touted as solutions for this health crisis — generate billions of dollars, annually, for the merchants of death. Through it all, no one is ever healed and obesity remains a worldwide pandemic.

In fact, health researchers expect this crisis to worsen in many decades to come. No doubt, something is terribly wrong. We are being deceived. Our lives and wealth are being milked for "no good reasons".

This book describes the pathologies of obesity and diabetes, and the diabolical social and environmental factors that contribute to them. More importantly, this book reveals that Divine Guidance, which represents the incoming civilization, where longevity, good health, and disease-free living are easily attainable — yes, right now!

This Guidance emphatically empowers us — helping us evade the deadly entanglement of the old, corrupted and exhausted institutions of this failed society, while preparing us to participate in the rise of the incoming and Divinely-guided civilization.
