People who are into Anthropomorphism or Furries as they and their creations are known have had little more than "How to Draw" books before now. Here for the first time is a brief guide to what Furries are and why people love them. This is not another art book. This book is for everyone tired of explaining why they like Furries. The mysticism, the psychology, sexuality, and the science behind it all. Read it yourself or pass it onto those who are staring at you like you are mad. It's not exhaustive, but for the beginner it's a good start to the exploration of Furries and the culture behind it.
