Many students want to lean to play piano without spending years on chords, scales, or reading music. They want the knowledge, understanding and the skills in an uncomplicated fashion. They want the lessons that are designed as basic building blocks to help the music knowledge grow with each step. They want a tool that will help them play the songs they cherish, without reading notes.

Welcome to *The Bollywood Piano*. A self-taught player and music producer himself, Rajan Shah presents us with easy-to-follow, to-the-point, at-your-own-pace instructions. Lesson plans are structured around the students using familiar songs to illustrate basic techniques. To expedite the music reading process, Rajan then moves on to songs that are mostly unfamiliar to Western musicians. He suggests that learning from unfamiliar songs avoids taking a guess for the note, as well as for the duration of the note. This challenges students to read the notes properly by utilizing the skills they are learning, all while introducing them to the exciting music of Bollywood.

Suggested finger numbers for all songs will help students develop needed dexterity, and percussive exercises will assist students in grasping various note values quickly. There are tips and five easy-to-follow songs that are composed specifically by Rajan to assist in ear training.

With this revolutionary new system, which includes 30+ songs, students will gain a solid base from which to grow as musicians in a remarkably short time. Anyone can learn how to play an instrument if they are dedicated, but now, thanks to Rajan Shah, the learning process is easy, fast and fun for the music-lover of any age and level.
