Cool Points and the Scale of Awesome Mark Barnes
This book is a guide to being as awesome as me. It started out as a joke and I got a bit carried away but it did turn out pretty awesome, though if you are overly sensitive about your life choices or aren't all that smart, you might not think so. You also might find it a little frustrating if you have a penchant for correct grammar or don't like made up words. That said, if you have a crack anyway you can totally have four hundred Cool Points and let's face it, everybody wants Cool Points.
