A Managerial Philosophy of Technology: Technology and Humanity in Symbiosis Geoff Crocker

A Managerial Philosophy of Technology offers a unique combination of a review of academic work in the philosophy of technology with practical methodologies for business management of technology strategy. It is thus conceptual and practical, academic and managerial. The author develops a radical new systems network concept which shows how the symbiosis between humanity and technology is mediated through science, the economy, productivity, and social structure. It is of interest to academics, technology management professionals, and science policy makers.
