The New Science of the UFO Kenneth W. Behrendt
The New Science of the UFO now completes author and researcher Kenneth W. Behrendt's groundbreaking trilogy on the subject of UFOs. It contains a complete scan of all 24 issues of a previously out of print, privately published, typescript UFO research journal titled "Annals of Ufological Research Advances" or "AURA", for short, which was the basis for his first two volumes, Secrets of UFO Technology and The How and Why of UFOs. Practically every conceivable facet of the UFO enigma was explored in the pages of AURA at a level of scientific detail that was unprecedented in the field of ufology. Those able to obtain some of the limited number of copies of each issue available to the public learned all about such exotic topics as: the sources of the mysterious glows that envelope nocturnal UFOs; why some malfunctioning UFOs must eject liquid metals in order to correct their propulsion system problems; how alien crews tap our earthly electrical power grids to recharge their scout craft; the nature of the mysterious "angel hair" and "devil jelly" residues left by hovering craft; how alien paralysis weapons are used for their personal defense and how crews protect their mother ships from attack; how alien telepathy works; how the living space creatures known as "zeroids" can biologically duplicate UFO capabilities; and much, much more! The material in AURA was intended for the most serious of ufologists seeking ultimate and satisfying answers to the mysteries that they were exploring. Now for the first time in almost two decades, these answers are again available for a new generation of researchers.
