Enfermedad celíaca y sensibilidad al gluten no celíaca (Spanish Edition)

Luis Rodrigo, Amado Salvador Peña

Enfermedad celíaca y sensibilidad al gluten no celíaca (Spanish Edition) Luis Rodrigo, Amado Salvador Peña
La enfermedad celíaca (EC) es un proceso sistémico de naturaleza autoinmune, que aparece en personas genéticamente predispuestas y cuya causa bien conocida, consiste en una intolerancia permanente al gluten, proteína contenida en la harina de ciertos cereales, fundamentalmente el trigo, pero también el centeno, la cebada y la avena. Su frecuencia es elevada ya que aparece en el 1-2% de la población general y tiene una amplia distribución a nivel mundial, por lo que es considerada como una de las enfermedades de base genética más prevalentes. Las formas de presentación son muy variadas, siendo muy frecuentes las manifestaciones digestivas de diversos tipos, pero también son muy abundantes las extra-intestinales, hematológicas, afectaciones en la piel, en articulaciones, en el hígado, óseas y neurológicas... Su abordaje es claramente multidisciplinario y en ella intervienen pediatras, gastroenterológos, internistas,médicos generales, hematólogos, inmunólogos, genetistas, patólogos, hepatólogos, reumatólogos, dermatólogos, neurólogos, ginecólogos, neurólogos, traumatólogos, rehabilitadores, endocrinólogos y nutricionistas, entre otros... La publicación de este libro está justificada por la amplitud e interés de los temas tratados en los diferentes trabajos que en él se recogen y que han sido escritos por especialistas clínicos, investigadores y docentes.
