Seven. The Wonders of the World have long been based around this number. Shrouded in mystery and hidden from the world, anything more has been deemed a mere myth. When M.C. agreed to accompany her friends in search of an Eighth such Wonder, she never believed it might actually exist. After having just graduated from one of New York City's most prestigious prep schools, she had been looking for a fun adventure with her best friends before moving on to college and apart from each other. However, despite her expectations, she finds herself on a journey across the continents, full of adventure, mystery, and magic. From the moment their plane mysteriously lands in the wrong country entirely, they knew this was no ordinary trip. Instead, they find themselves on a journey of discovery - not only about the mythical EighthWonder and all it entails, but about themselves and each other as well. Nonetheless, there are forces that seem to be working against them, creating obstacles every step of the way.
